

Effectively Combating The Global email SPAM Crisis

Infographic created by Ed Woods Process Engineer ew@websoa.com

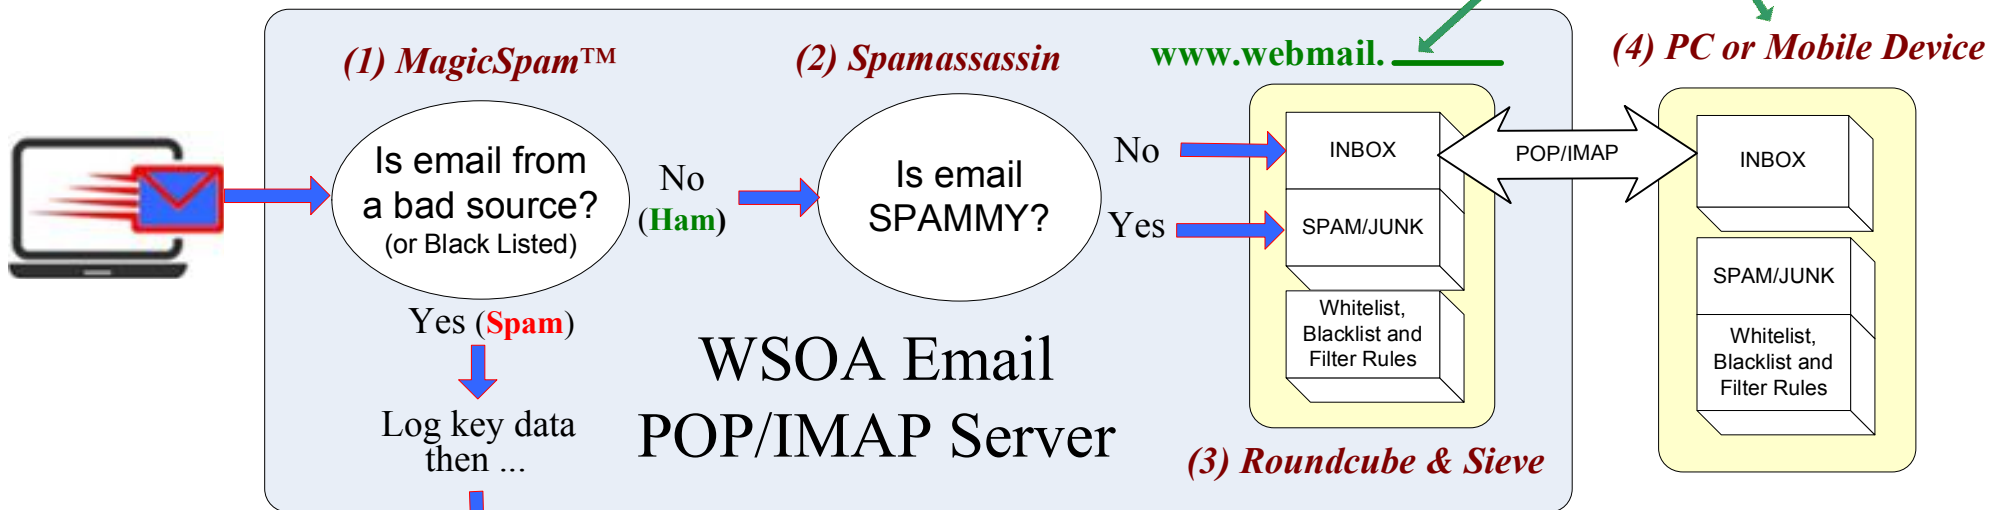

Four SPAM Gateway Filters

MagicSPAM™ "Mail Server Profiling"™, blocks obvious bad sources of email before they arrive in your email box.

Spamassassin filters each email against SPAM rules and program thresholds.

email stored in your WSOA POP account can be accessed in your web browser.

Your Domain Name
with same login/password

| | |
|--------|--|
| 50-75% | Comes from Trojans, and Bots on ordinary computers |
| 10-15% | Comes from Email Marketing Companies |
| 5-10% | Comes from Compromised/Hacked Servers or Accounts |
| 2-5% | Comes from Free Email Providers |

Together this accounts for 99% of all unwanted email
